Hi I'm Rodrigo, a professional with **9** years of hands-on experience in **software development**. Proficient in leveraging **C#** and **React** to craft robust and scalable solutions, I bring expertise in both front-end and back-end development. With a comprehensive understanding of SQL and non-SQL databases, I am adept at designing and optimizing database architectures to enhance application performance. My passion for innovation and commitment to delivering high-quality software solutions drive me to stay abreast of emerging technologies and best practices in the field. **Ready to tackle complex challenges and contribute effectively to innovative projects.**
